

## Uniqueness of Uganda

Even though the Covid vaccine was pushed for the longest time to be able get in to Uganda, the only vaccine that is required to get in to Uganda is the yellow fever vaccine.

### Prayer Requests

- Bible translation works in Runyankore and Lhukonzo
- Preaching point in Kyishanyarazi
- New churches in Kyinyayoby and Ribweryakona
- Mountain ministry
- New Discipleship Points
- Marcus, Kendra, and Kirsten adjusting to life in the US
- Faithfulness of those leading in the churches

## Furlough Ending

We are so thankful for God's continued protection for us on the many miles of our furlough travels. **We have surpassed the 33,000 mark on the vehicle without any major issues.** We are grateful for the hand of God watching over us as we traveled through Michigan, Ohio, Kentucky, Tennessee, Georgia, Illinois, Indiana and back to Missouri.

We are humbled by the generosity of God's people as we have been presenting the needs for our different projects in Uganda. **We have received almost 95% of the funds that we had attempted to raise during this furlough.** We are looking forward to what God will accomplish through the use of these funds. If you are interested in helping with any of this remaining amount, please contact us via email or text.

The Lord willing, this will be our last prayer letter from the States as **we are planning to return to Uganda on September 17.** Please pray for our safety in returning; that all our bags will arrive safely and at the same time and that we will be able to get set back up in the country quickly. **We will continue the "taking u 2 Uganda" videos then as well.**

## Home in Uganda

God continues to work in the different ministries there in Uganda, for which we are grateful. It is one of the many things we have tried to teach the Ugandans—they do not need us, they simply need God. Yet, God has called us to be there, and we are so ready to jump back into the different ministries and even wait on the Lord's timing to start some new ministries.

## Family Update

We have asked for prayer regarding Kirsten. She has been having "episodes" of a racing heart, heaviness in the chest, numbness in the face, and hand muscles that tighten and draw up. She had an ER doctor and cardiologist that were concerned but found nothing conclusive. Our own study has found that it could be a problem with her kidneys. **Kirsten has an appointment September 12 to find answers. Pray for strength and wisdom!**
